

## TRANSITIONAL HOUSING CAMPUS FOR UNHOUSED AT-RISK CITIZENS

To reduce health disparities, our facility fulfills the needs of at-risk individuals beyond basic housing. Many of these individuals are facing mental health diagnoses, substance abuse disorders, chronic diseases, and histories of trauma. Traditional health care providers are not equipped to meet the complex needs of the population we serve. The Epic Pathway campus offers a path to sustainable stability - providing engaged treatment and low-barrier service programs consistent with the needs and abilities of individuals experiencing homelessness.

### WHO WE ARE

Our team consists of healthcare workers with a proven track record of tackling complex community health-related issues combined with experts who have dedicated their careers to understanding and solving homelessness nationwide. Our collective knowledge shapes the Epic Pathway model and ensures adaptive management and continuous data-driven improvements for those experiencing chronic homelessness. Our goal is to create replicable systems that can be built upon and implemented not only in New Mexico, but across the nation. We understand the key motivator for success in this work is making sure that people feel really connected to a community.

### WHY EPIC PATHWAY

It takes more than just four walls for someone to feel safe and secure in their housing situation. Our approach to health and wellbeing is holistic. For an individual to thrive, they must have access to not only safe housing, but also regular healthcare, a variety of personal and developmental programs, and proactive guidance. Our vision is to transition those most at-risk into a future with housing, recovery, and financial stability. We are prepared to identify and house at-risk individuals as well as to engage them in intentional programs with wraparound services designed to support them in all aspects of life.

### EXPERIENCE MATTERS

- 25+ years of team experience designing solution-driven approaches to relieve the burden of homelessness on individuals and communities.
- A New Mexican company familiar with local resources, well-networked and positioned for collaboration.
- Able to deliver persistent, personalized programming to achieve positive outcomes that allow individuals and communities to thrive.
- A nimble organization - purpose-driven yet responsive, willing to experiment and evaluate, and consistently prioritize bridging the gap between ideas and implementation.
- Our risk mitigation efforts during COVID allowed thousands of workers to return to work safely and maintain their household finances.
- Proven results, with clients including AppleTV, Netflix, HBO/Max, Amazon, public schools, community organizations, and small businesses across seven states.
